

## Smitty

By Angela

This pattern is free to use for non commercial purposes. If you embroider his eyes rather than use beads he is also suitable for young children.

Smitty is a little 5 inch bear with thread jointed limbs (seasoned bear makers can of course add cotter pin joints if preferred).

If this is your first bear you will find instructions on my website.

*The pattern should print out on A4 landscape (ie pattern pieces should not be larger than 1/2 your printers paper.*

*You should not need to alter any printer settings but if you find he is not printing correctly, you may need to tick the check box for "fit to paper" in your printer's settings.*

Enjoy your bear. If you like to send on a pic I'd love to see him and would be happy to pop him on my website too
